ORDER

Re: Judicial Education Advisory Committee

A Judicial Education Advisory Committee is hereby established for the purpose of recommending to the Supreme Court education and training programs for Kansas District Judges.

Judges must develop, maintain, and improve their professional competence by participating in continuing education programs throughout their careers. The judiciary is best able to understand and assess its own educational needs and to establish appropriate programs and tools for meeting those needs.

The Judicial Education Advisory Committee is charged with the responsibility of developing and recommending to the Supreme Court education programs which will accomplish the following goals:

- A. to provide judges with the knowledge, skills, and techniques required to perform their judicial responsibilities fairly, correctly, and efficiently.
- B. to improve the administration of justice, reduce court delay, and promote fair and efficient management of trials.

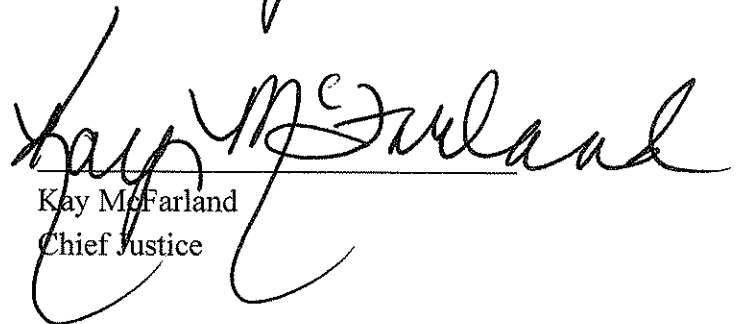

The basic approach of the education and training programs should emphasize the use of modern adult education principles. Faculty members should be familiar with and evidence a strong desire to learn effective teaching techniques based on these principles. To the extent permitted by available resources, faculty members should receive instruction in adult education methods and assistance in preparing presentations and materials prior to teaching in a court-sponsored program.

Membership of the Judicial Education Advisory Committee shall include representation of appellate judges, district judges, district magistrate judges, and the Judicial Administrator. Members will be appointed by and serve at the pleasure of the Supreme Court.

The following judges are hereby appointed to serve on the Judicial Education Advisory Committee:

- Robert Davis
